Dean's List

PROFESSIONAL DEVELOPMENT

Web Development, Algorithm, and Data Structures Foundations - Firehose Project, June - Oct 2015

An intensive 15-week program in which I am studying to become a programmer. I have learned how to develop web applications, break down complex problems into more manageable pieces and many tools of the trade.

- Learned how to build-out CRUD Rails apps following standard Rails conventions (without scaffolding), involving mailers, validations, image uploading on AWS S3 and nested RESTful routes.
- Implemented tests using MiniTest's Test::Unit Syntax for both unit and functional tests.
- Learned front-end development fundamentals and implemented responsive design in web applications.
