"Success is the sum of small efforts repeated day in and day out."
- Robert Collier

PROFESSIONAL PROFILE

My passion began many years ago with web design and evolved into a curiosity for how to "build stuff". I love being immersed in the programming world and am seeking a Junior Developer opportunity. I am dedicated to learning my craft and would love to contribute to a team while building upon my current skill set.

Skills include:

Full-Stack Web Development, Object-Oriented Programming / Test Driven Development / Digital Project Management / Online Marketing Collateral / Graphic Design

TECHNICAL SKILLS

Languages: Ruby, HTML5, CSS3, Javascript

Frameworks & Tools: Ruby on Rails, jQuery, PostgresSQL, Heroku, AWS, Twitter Bootstrap, Git / Github, WordPress, Middleman, Photoshop

EDUCATION

Syracuse University, Syracuse, NY, 2003- 2007
Martin J. Whitman School of Management
Bachelor of Science; Entrepreneurship & Emerging Enterprises
Dean's List

PROFESSIONAL DEVELOPMENT
Web Development, Algorithm, and Data Structures Foundations - Firehose Project, June - Oct 2015

An intensive 15-week program in which I studied to become a web developer / programmer. I learned how to develop web applications, break down complex problems into more manageable pieces and many tools of the trade.

• Learned how to build-out CRUD Rails apps following standard Rails conventions (without scaffolding), involving mailers, validations, image uploading on AWS S3 and nested RESTful routes

• Implemented tests using MiniTest's Test::Unit Syntax for both unit and functional tests

• Learned front-end development fundamentals and implemented responsive design in web applications
